NOTA — Os dados referentes ao movimento do Registro Civil não exprimem propriamente aspectos da realidade demográfica brasileira, pois os algarismos aqui consignados apresentam grandes deficiências, já quanto ao movimento de inscrições, já quanto à coleta respectiva. Esses dados, porém, constituem um depoimento cujo exame é indispensável para orientar a ação do Governo e a própria opinião pública sobre as medidas que devam assegurar a eficiência de um serviço de natureza fundamental para a vida do país. O Instituto Brasileiro de Geografia e Estatística tem estudado o assunto cuidadosamente e espera resolvê-lo em breve prazo.
